Infrastructure Matters! How the Right IT Infrastructure Adds Value to a SAS® BI/DW Deployment

John Smale, Sun

ABSTRACT

Business Intelligence and Data Warehousing (BI/DW) solutions are complex integrated environments that includes source systems, ETL servers, and data warehouses that drive reporting and analytical business intelligence. Dealing with the many complex data and system integration points to satisfy business requirements is daunting enough, never mind having to deal with infrastructure design decisions. Come hear how Sun has worked with existing enterprise SAS® customers to provide a cost-effective and feature-rich IT infrastructure that adds real value to their SAS deployments.
